department of commerce and labor. Their conference lasted until after 6 o'clock tonight. Extreme reticence was displayed by everybody and no statement other than that the general situation was discussed could be obtained. Senator Crane was close to the president in the last session of Congress and was a daily visitor at the White House. The president was reported tonight to be well satisfied with general conditions and hopeful of Republican success "all along the line." It was definitely determined this afternoon that Atty-Gen. Wickersham will accompany Secy, Nagel to Alaska.

The delegate from Alaska, Mr. Wickersham, who is in no way related to the attorney-general, is at loggerheads with the administration.

The president has found it necessary lately to remove a number of Alaskan officials. Several men whom he appointed to succeed these failed of confirmation and made it necessary for the president to resort to recess appointments. Mr. Tafts wants as much first hand information as he can get on the situation. He believes that the attorney-general and Mr. Nagel can bring him this Information.

The administration of affairs in Alaska is almost wholly in the hands of the United States attorneys and marshals of the three divisions. These officers are supposed to act in harmony with the governor. In some of the divisions, it is said, there has been anything but harmony. Atty-Gen, Wickersham is largely responsible for the district attorneys and marshals, and he is anxious to get some information for his own guidance. The trip of the two cabinet officers will last two or three months.

Dr. G. Stanley Hall Says That They Are Absolutely Irreligious and Have No Souls to Speak Of.

Greeley, Colo., July 12.-Girls turning 16 are absolutely irreligious and have no soul to speak of, according to Dr. G. Stanley Hall, president and professor of psychology at Clark university, Worcester, Mass., lecturing at the mer normal school here today. Hence it is, he explained, that they are de-voted to rats, puffs, psyche knots, fudge, giggles and other ephemeral

things.
"The budding girl is as baffling a problem as the soul of woman," said Dr. Hall, "and the world now knows that, instead of no soul at all, woman now has one, two, three or even four wors than man. ore than man

"The young girl is absolutely irreligious in her nature. She is myopic,
